Everything You Need to Know About Digital Group Audio (DGA)

Overview: Digital Group Audio (DGA) was founded in 2007 as a start-up dedicated to manufacturing innovative, high quality audio/video products that provide functionality and style. DGA uses the highest quality parts and speakers from around the world to ensure each DGA sound system offers unparalleled sound quality. Products are designed to give consumers quality and convenience, with style. DGA is a privately held company based in Carlsbad, CA. For more information, please visit www.DigitalGroupAudio.com.

DGA was chosen as one of five companies nominated for the [WIRED magazine Small Biz Contest](#). Recently, Business Week recognized DGA as one of [“America’s Most Promising Startups”](#). In addition, inventor/co-founder, Erik Groset was added to the [“Young Inventors International Hall of Fame.”](#)

DGA is the audio division of D & G Solutions, LLC. DGA products are made for the customer, by the customer. Livespeakr™, which debuted in January 2009, is the first consumer-available product from DGA.

Leadership: Erik Groset, President and Co-Founder
Robin DeFay, Vice President and Co-Founder
